

## Environmental Information for the Electricity Product from DTE Edison America

(This is a new energy product. DTE Edison America has made no guarantee as to the environmental characteristics of the energy to be supplied from January through December, 2000. The data shown below are default values, and do not necessarily reflect the energy that DTE Edison America will supply.)

### Electricity from DTE Edison America

Electricity can be generated in a number of ways with different impacts on the environment. The standardized environmental information shown below allows you to compare this electricity product with electricity products offered by other electric suppliers.

#### Energy Source

Default values are shown which represent 1996 regional averages.

Coal	_49_%
Gas	_7_%
Hydroelectric (large)	_2_%
Nuclear	_34_%
Oil	_6_%
Renewable energy	
Captured methane gas	_0_%
Fuel cells	_0_%
Geothermal	_0_%
Hydroelectric (small)	_0_%
Solar	_0_%
Solid waste	_2_%
Wind	_0_%
Wood or other biomass	_0_%

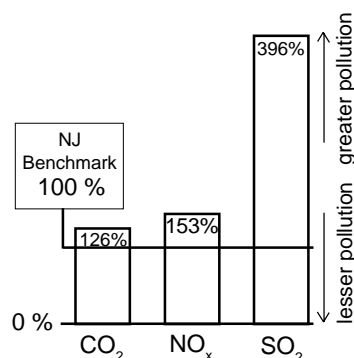

Renewable energy sources subtotal \_2%

TOTAL 100%

#### Air Emissions

The emission data given are default values and represent the average amount of air pollution associated with the generation of electricity in the region. This amount is compared to the New Jersey benchmark. The benchmark approximates the average emission rate for all electricity generation in New Jersey.

CO<sub>2</sub> is a "greenhouse gas" which may contribute to global climate change. SO<sub>2</sub> and NO<sub>x</sub> react to form acids found in acid rain. NO<sub>x</sub> also reacts to form ground level ozone, an unhealthy component of "smog."

#### Energy Conservation

DTE Edison America is not investing in energy conservation measures for this electricity product. Energy conservation measures means less electricity needs to be generated and pollution is avoided.

Avoided generation	Avoided Air Emissions
_0_ KWh	_0_ tons CO <sub>2</sub>
	_0_ tons NO <sub>x</sub>
	_0_ tons SO <sub>2</sub>

See your Terms of Service for further information regarding this label. You may also call DTE Edison America for additional information or a copy of the Terms of Service at (877) 220-9254.
